Person Locator Search

Introduction

The Person Locator Search enables you to search for and find individuals and couples, by simply entering their data.

By default any searching of this product is an acceptance of Terms & Conditions and compliance with Privacy Legislation for the provision of Mirus Data.

National HelpDesk **1800 738 524**

This User Guide covers the following topics on Person Locator Searches:

- Search by Name
- Search by Phone Number
- Advanced search
- Search by Couples
- FAQs

Search by Name

1. Enter a **First Name** and/or **Middle Name** and/or **Last Name**.

2. Click **Lookup** to view the number of results. If over 50 search results are found, a warning will appear as a fee is charged per search result. Refine the data entered if necessary to lower the number of search results returned.

* Partial name search

Use an * (asterisk) to search for a partial name.

e.g. First name: Rob*
Last Name: Smith

This will return Rob Smith, Robert Smith, Roberto Smith and so on, any name that exists with the First Name beginning with the letters 'Rob' and with the Last Name 'Smith'.

Q What is Person Locator?

With over 130 million Australian records, this product provides fast results for searches of Australian Residents and the service has specifically been designed for the investigative, finance and tracing industries. The data is regularly updated and cross indexed to help ensure you get the most up to date and accurate results.

Q How does it work?

Person Locator is used for making contact with people. It's a fully reverse searchable database that makes locating people and identifying them very quick.

Q What data is used?

The Provider has access to a large number of publicly available sources and data wholesalers under various licence arrangements. The phone data is acquired from various sources including wholesale list providers, survey providers and opt-in websites. The geo-location information is performed by GCNA and GGCD as well as various public record databases such as property boundaries and roads.

Data sources include:

- Proprietary legacy data that includes name, address, phone, for over 80 million historical records.
- Phone records from various commercial sources
- People information (Australian Bureau of Statistics data)
- Addresses (Australia Post licensed sources)
- Monthly transactional consumer data updates
- Year of Birth for residents of VIC, NSW & QLD
- Historic Name and address data going back to 1993
- Courts data - Bankruptcy / Judgments
- Survey data
- Property data, over 350,000 For Sale/Rent properties

Q How often is the data updated?

This depends on the source of information that is being searched. Data phone numbers, names and addresses are updated on a monthly basis with property data, homes for sale and rent, being updated weekly.

Q Where do People and Phone details come from?

Phone data comes from various sources including wholesale list providers, survey providers and opt-in websites. People location information is obtained from sources such as opt in survey website, ABS Census, ABS HES (Household Expenditure Survey). Transactional Data is also collected from a number of opt in websites and data sharing partners.

Q Other Data Sources?

Agreements with a number of large data clients (telemarketing centres etc) is used to confirm the currency of the data by washing the people records to their current customer data.
