

Data visualisation at its best.

REVEAL complex corporate structures and relationships through one simple visualisation.

REVEAL features & benefits

Reorder and compare searches

Reorder a previous search or group of searches directly from within your REVEAL workspace. REVEAL will highlight any changes in your updated results so that they are easy to spot.

View shareholder percentages

Easily highlight shareholders of a company, or view the percentages they hold of each class of shares. REVEAL also displays beneficial owners (25% or higher).

On-search easily

Perform follow-on searches directly from the REVEAL workspace, by clicking on any person, company or property. Data will be prepopulated into your search to streamline the process.

Review results faster

Distil complex corporate structures into simple visualisations to reduce professional hours spent reviewing search results.

Customise your workspace

Add your own custom entities to the workspace including people, addresses or trusts, to enrich the REVEAL visualisation with your own data.

Export search results

Export your search data from the workspace into an Excel spreadsheet, PDF or image, and email to colleagues or clients directly from REVEAL.

Visualise addresses

Visualise all addresses on Google maps to view proximity of directors and companies to one another.

View corporate timelines

View a dynamic historical timeline of changes to the company from its inception. Select any date in the past, such as a payment to preferred creditors, or when a cause of action arose, and REVEAL will instantly show you the corporate structure at that time.

REVEAL

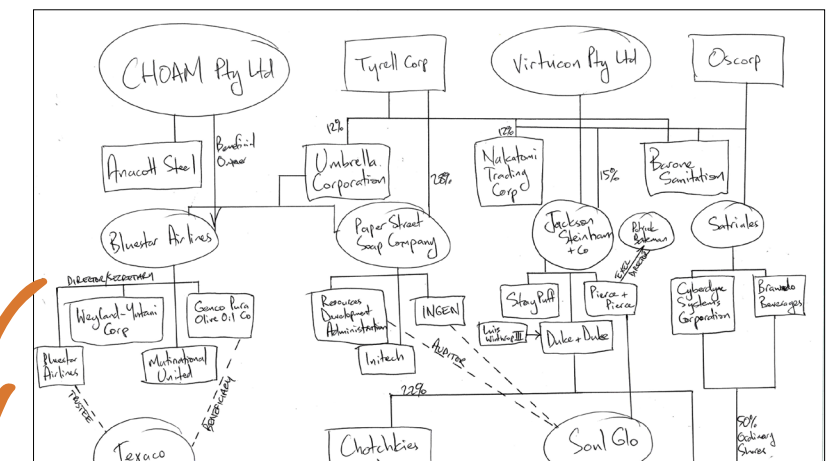

Imagine having a tool that aggregates search results from multiple sources and instantly maps out relationships between people, companies and assets in one simple visualisation. This is now a reality with REVEAL.

REVEAL is an interactive workspace that simplifies your search results at the click of a button.

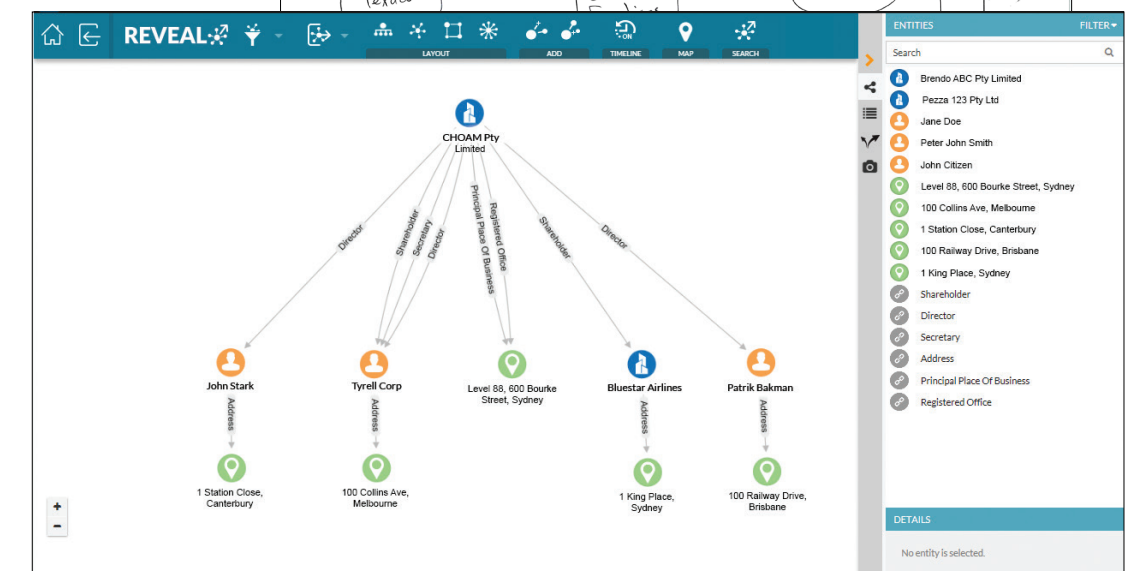

REVEAL allows for faster, easier and more accurate analysis of land, credit, international, ASIC, PPSR and AFSA data. When you order a search through InfoTrack, REVEAL will display the results in a visual format that you can customise and filter to meet your needs. REVEAL enables you to easily highlight relationships, identify beneficial owners, view shareholder percentages and track changes to corporate structure.

REVEAL is a complimentary tool provided to all InfoTrack clients.

Do your company search results look like this?

or this?

“

REVEAL gives us so many options – we can choose to focus on an individual director or shareholder, export information in a spreadsheet or diagram, and change the layout of any workspace. It's just amazing.

- Mary Digiglio, Swaab Attorney

”

“

Before I commence work on a matter I think about the best approach with which to tackle it. Where do I begin? How can I obtain the best information quickly? How can I best present my findings? Previously I would analyse and examine voluminous documents with extensive notes, which took many hours. With REVEAL I can now present pages of information visually and suddenly everything makes sense. A picture is worth a thousand words!

- Frances Panetta, Panetta Family Lawyers

”

Award-winning technology

REVEAL won an Australian Business Award for Best Technology Product in 2015 and was recognised as a leading product developed through the practical application of technology for new and existing market needs.

InfoTrack has won more than 25 awards since 2014 for innovative products, outstanding service and amazing culture.

Get in touch

Better understand your complex corporate structures and allow REVEAL to drive home your decision making to another level through the influence of powerful visualisation.
