

# SignIT

Sign any document electronically from wherever you are.

SignIT is an easy-to-use electronic signing tool that enables you to sign documents online in a few simple steps. Save time and money by executing documents faster and avoiding the hassle of printing, scanning and posting.

## SignIT in four simple steps

1

Upload your document

2

Drag & drop tags to mark where signatures are required

3

Email a secure link to the document to all signers for eSigning

4

Track progress and receive a final copy of the signed document

## Secure. Fast. Easy.

We have partnered with DocuSign, the market leader in eSignatures to ensure a secure eSigning process. DocuSign records meta-data which provides a digital audit trail and chain of custody to prove authenticity, intent and context for each eSignature.
